### A KEY WEST OPINION

A Lake Worth man who owns land in the upper Glades brings to this office a copy of the Tampa Morning Tribune and calls attention to this paragraph:

Read For Sale. The Tampa Tribune is another paper which finds nothing but trouble in the upper Glades. The paper is owned by the same man who owns the land in the upper Glades. It is a business man, and he will not let his business be hurt by the paper.

Neither the Tampa Tribune or the Key West Citizen is received at the office of The Everglades News, so all we know about it is what appears in the spot-indeed above, and what that says is that the "business should rest right where it is."

Conners highway is under lease to the State Road Department and the lease runs to next March—basically the way the State Road Department and the Key West Citizen for the matter to rest like it, suits us.

Senator Gomez of Key West is understood to be a candidate for governor, and it strikes us that if the Key West Citizen's attitude toward the purchase of Conners highway is Senator Gomez view, Senator Gomez hasn't any claim on support from the people of the territory Conners highway view.

Likewise, if the people of the Conners highway territory are going to have a free road, why should the State Road Department spend any money on a road leading to Key West? If a traveler insists on going to Key West he can get there on a passenger boat, but there are no passenger boats serving Canal Point and the other communities on Conners highway.

As we have not seen the Tampa Tribune's argument against state purchase of Conners highway and don't know what the argument is, we cannot undertake to reply to it.

### WOMANS CLUB

## CANAL POINT

J. H. Wilkinson, formerly of Chatham, Ga., has been employed by the Kilgore Seed Company at the Canal Point-Pahokee house to succeed R. L. Hatcher, who has been transferred to Pelican Lake.

E. E. Kelly of Clewiston, a member of the board of directors of the Bank of Canal Point was in Canal Point Monday to attend a meeting of the directors. He is connected with the Clewiston Motor Company, the Chevrolet dealers in that territory.

Mr. and Mrs. Jack Barrett saw the Florida-North Carolina football game in Tampa Saturday. They left here at 3 o'clock Saturday morning and got back Sunday night. Mr. Barrett says smoke was heavy between Kissimmee river bridge and Brighton, due to burning grass.

Dr. Young and John Fornay of Canal Point and H. P. McArthur of Clewiston were among the several who went to Tampa Saturday and saw the game between the Florida Gators and the North Carolina Gamecocks.

## C. P. SCHOOLS

There has been considerable increase in enrollment in the Canal Point schools in the last few weeks. A dozen or more new faces were seen on the campus Monday morning. This month's report showed a grand total of 256, a slight increase over last month of 240. The number of new faces was only seven.

Teachers make conditions very crowded and unsatisfactory. The Canal Point junior high football team played a nice game with Okeechobee last Friday afternoon, a game of 6-0. The score, however, does not speak well for the Canal Point juniors for they outplayed the Okeechobee team in gaining yardage. They are to play a return game the first week in December, either Wednesday or Friday.

Miss Inez Williams, teacher of the first grade, will probably be away for a while beginning next Wednesday on account of the serious illness of her mother near Marianna. She will have a leave of absence.

### THANKSGIVING? YES.

### AND THE PILGRIMS

Long ago there lived some people in England under the rule of King James. He would not let them worship God as they wanted to. These people wanted to go to America so King James they could go.

They set sail in the ship Mayflower and they landed at Plymouth. The men and boys cut down the trees and the people all lived together in the fort until they got the houses built.

One day an Indian named Squanto came and said that the Indians wanted to be friends to the white people. He went back and got the Chief Massasoit who made a treaty and smoked the peace pipe.

Squanto stayed with the Pilgrims. He taught them how to fish, hunt and to plant Indian corn. Everything grew so well that they had plenty for the next winter. They sent for their Indian friends to enjoy the feast.

The men brought turkeys, deer, and clams. The women and girls did the cooking. The feast lasted three days and was our first Thanksgiving.

George C. McElroy of Pahokee: "The coming of a telephone exchange is a great thing—it will do as much good as the installation of electric light and power service."

PAHOKEE ELEMENTARY

We appreciate getting this paper, for they are "hand us down."

The old piano from the high school building has been graciously bestowed upon us. D. C. McKelvie from Fort Meade is repairing our newly acquired possession.

We have just received no response to our appeal in last week's paper, for trucks to haul in shells to surface our volley and tennis grounds. Please help us out if you have a truck and time to give to the improvement of our children's playgrounds.

SECOND GRADE

Elsie Woodman is absent this week, from school.

We are truly enjoying reading "My Weekly Reader," a new paper, to which we have subscribed for a period of eight weeks.

Second grade pupils are collecting pictures from magazines to represent the Health Chores taken up in connection with their school work. "These pictures are to be made into a health booklet later on. If any one has any magazines to be disposed of, we'd appreciate it if they could be left at the Pahokee elementary building for use there. Some pupils do not have access to magazines in their homes, so for this reason, we are asking for any old magazines to be left here for the pupils' use."

FIRST GRADE

Mrs. Kendall continues ill at a hospital in Lake Worth. Mrs. Earl Mallard is substituting for her.

We have two new pupils in the first grade—Olive O. Lofton and Bobbie Lofton. There are 36 children now enrolled in the first grade.

Our Sunday school is growing. Our offerings last Sunday were way up. We had several new members, and should continue to increase now during the winter months.

Rev. Rodgers will celebrate his

Our church choir has already started on their Christmas music, and will work up a Christmas musical program for Sunday night, December 20th. Our young people will begin rehearsing the Christmas play next Wednesday. We extend a warm welcome to all the strangers and new residents to worship with us.

Evening worship, 7:30 o'clock. Sermon by Joe A. Tolle based on

the answers given by our women on the following questions:

1. Should a husband expect his wife to stay home from church to prepare Sunday dinner?

2. What are the three outstanding moral temptations for women in Pahokee today?

3. Do parents have a right to impose their own moral standards and their religion upon their children?

4. Should children be made to attend Sunday school? Should they be made to attend church?

5. Has the movement of women in business had any effect on our moral condition in the world today?

What is your answer to these questions?

A Detroit car with four occupants, tract owners on south of Okeelanta, drove in to see their land and inquire on Everglades possibilities. Their remarks it was evident that no taxes with any longer be arising from them.

## PEOPLE WE KNOW

N. C. Buchanan, who worked with H. A. Bester of Clewiston, sugar company hydraulic engineer, during the Dahlberg regime, is now with the U. S. Engineer's crew which is making headquarters at Moore Haven. He was with the crew that worked along St. Lucie canal.

F. L. Williamson, once a director of the Southern Sugar Company and president of the Clewiston Building Material Company, was at Clewiston this week making adjustment of business matters. His wife was with him and as they had leased their house they stopped at the Inn. He seems to have recovered from the illness for which he was in a hospital for several months. Mr. Williamson was head of the Flood Control Association that was active in getting the government appropriation for Lake Okeechobee. It is understood he is now in business in Kansas City and makes his home there.

W. H. Webb, former office manager of the Moore Haven Sales Company, has opened an authorized Ford agency in Clewiston for the Murray Motor Company, the representative. Harold Johnson is the shop foreman. The Ford agency at Moore Haven has been closed.

To Friday of last week three cars of beans had been shipped from Moore Haven. H. E. Gaylean handled the shipments. Okeelanta beans went in trucks and by express. Three cars from Glades county and 488 from the "Palm Beach county" upper Glades section shows the difference in production in the two sections.

Charles Bennett, who lived on the Hutto place on Eagle Bay, was killed by his 18-year old son Kenneth. Bennett was drinking celebrating his 47th birthday, when an argument started between him and his wife over whether their daughter should be allowed to visit their former home, Vaucluse. He was attacking his wife with a cane knife when the boy shot him. There was no inquest, the killing being justifiable.
